FEATURES

Five washing programs The product in question has 5 different programmes, making the dishwasher flexible for all kinds of need

Adjustable basket The upper basket is simple to adjust in height, even when fully loaded. This allows better space management according to washing needs.

Tabs "all in one" This option guarantees perfect results with all kinds of detergent. Once it is activated, the washing cycle is adapted to the practical all-in-one tabs instead of the regular detergent.

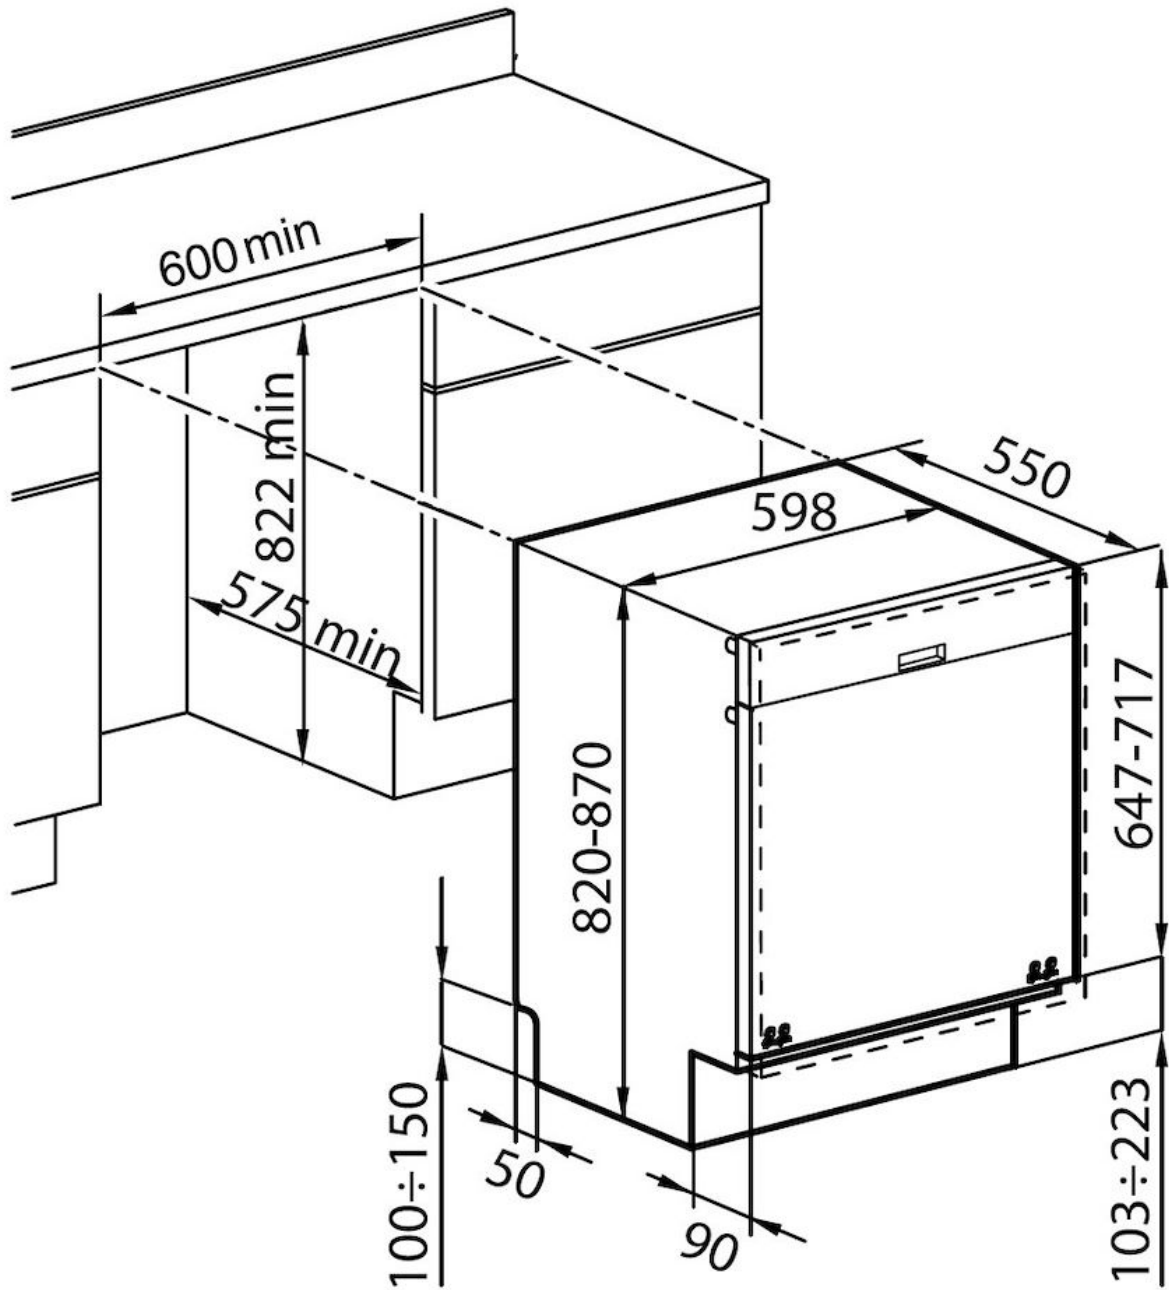

Half-load option Saving time and energy with the half-load setting. Available on all programs.

Delayed programming It is possible to program a delayed start of the dishwasher, and thus to optimize the energy consumption during the day.

Acquastop safety The system stops the water supply and prevents leaks and overflows at source.
