Key to understanding the accessories

The lengths of the channels and accessories are indicated in “units”; for the composition, the sum of the “units” of the accessories must be the same as the length in “units” of the channel.

Notes:

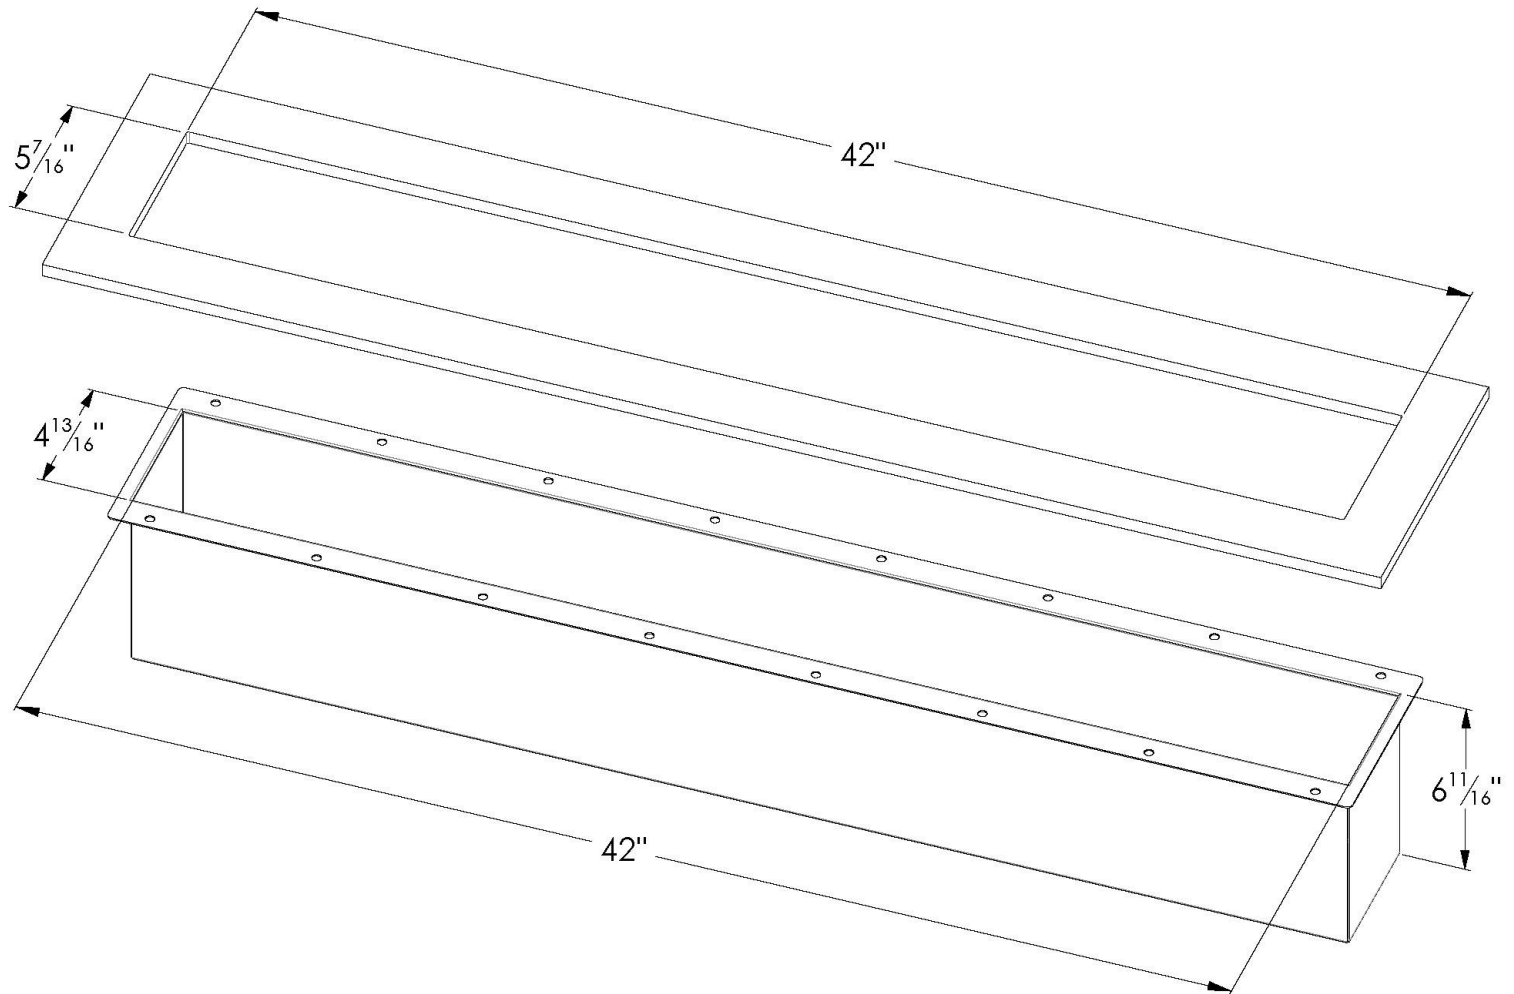

The trough includes a stainless-steel bottle-opener that must be used as element to complete the accessories' composition

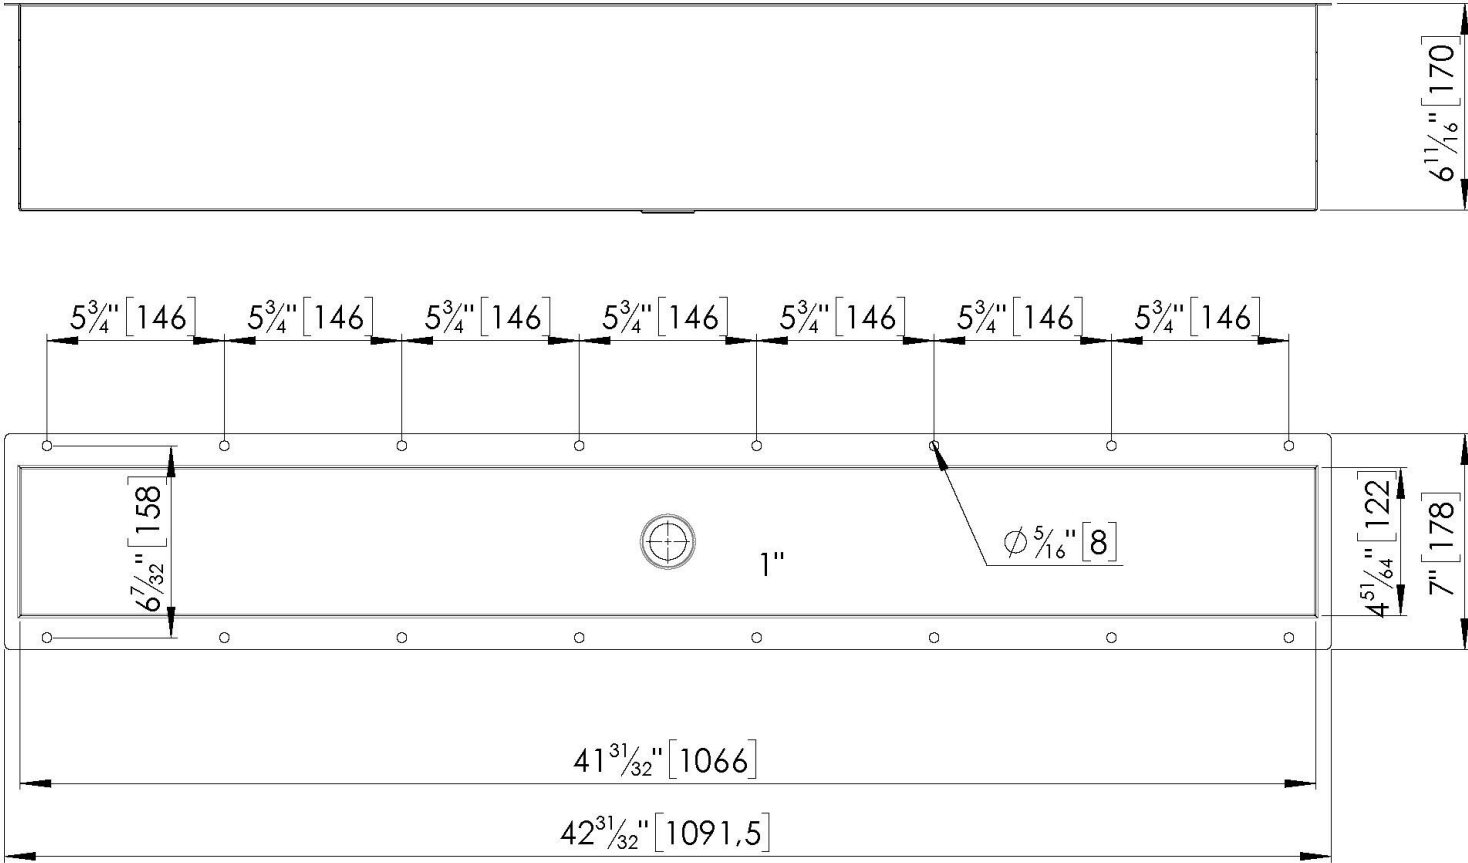

FEATURES

High thickness 1.2

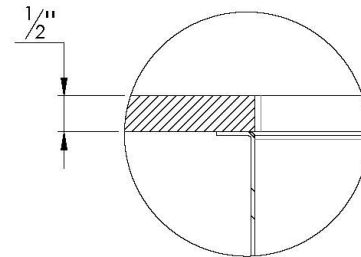

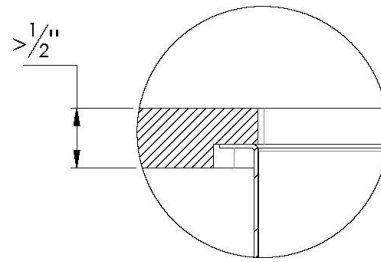

1.2 mm thick steel. A significant thickness, which guarantees the maximum sturdiness and durability.
